IAM Credential Report

**Credential Report**

Lists all users in your account and the status of their various credentials, including passwords, access keys, and MFA devices.

Console

Head to IAM section, find Credential report on the left and download a CSV containing the report.

CLI

```
aws iam generate-credential-report
aws iam get-credential-report
```

Does the IAM Credential report have information about Roles?

Does the IAM Credential report have information about Identity Providers?
